THE HUMAN HAIR

HAS LONG BEEN THE STUDY OF THE most scientific men of the age, from the fact that close study generally causes the hair to fall off prematurely; and, in consequence, they have given the subject a portion of their valuable time, trying to invent some method to regain their lost locks; but all their labor was in vain, until

PROFESSOR CROCKETT

after many years of hard study devoted to this one subject, has produced an article that

WILL MAKE THE HAIR GROW.

and which, by its use as a Hair Dressing, will effectually and always prevent its loss—even to extreme old age. Happily, the

AMYGDALINE

while possessing these virtues, is most delightful and agreeable without regard to their color, and, when diseased, becomes dry, and commences to turn grey, which is caused by the non-secretion by the capillary glands of a peculiar oil. It has therefore been thought and believed that if the glands were stimulated into action, they would still give a sufficient supply of nourishment to the hair; but alas! they forgot one very important law of nature, viz: that ALL STIMULANTS HAVE THEIR REACTION; and the more the glands were stimulated—the sooner the final loss of the much prized locks. The principle of the preparation invented by Professor Crockett is entirely the opposite—instead of stimulating the capillary glands, he feeds them with the substance they require, and, in turn, the hair is fed by them—the same principle as giving water to a flower. All we will say to those who are timid about trying new preparations is, that we strictly guarantee the AMYGDALINE to be entirely free from all stimulants, and is as harmless as filtered water, and can be used on the smallest infant.

Hair Dressing
It is unequalled by any the world has yet produced. It keeps the head entirely free of dandruff, eruptions, pimples—imparting to the hair a beautiful glossy softness not obtained by any known compound. It will also be found both pleasant and useful as a Cosmetics, passing cold cream and face lotions in its use; for chaps, sore breast and nipples we know of no remedy that is equal to it.

THE PERFUME

used is such that the AMYGDALINE will always retain, it will not become rancid by age; in fact, it is perfect in every particular. Professor Crockett's Amygdaline can be had of all druggists, and dealers everywhere. Price 50 cents.

Ask for Crockett's Amygdaline, and take no other. se25-6m

The California Fly-Killing Liquid.

FLY PAPER KILLS ITS THOUSANDS. THE

Liquid Fly Killer kills tens of thousands. The

preparation for killing flies gives the greatest satisfaction of anything ever yet used. It is so improved to the highest killing point. It is of such a nature and so speedy of effects, that the flies will not spot the walls and windows, which makes the use of other preparations so objectionable.

THE NEW GOSPEL OF PEACE.

ACCORDING TO BENJAMIN.

CHAPTER VIII.

1. Here beginneth the second book of the mystery of the new gospel of peace, whereof I, Benjamin the Scribe, the brother of Phernandiwud, wrote in the former book which was published unto the people of Gotham and unto the people of all nations.

2. In the day when Phernandiwud declared the new gospel of peace in the hall of Peter the Barrel-maker, Robbutleeh, the chief captain of the Tshivulree, was in the land of Dikese (for so is called the land of Unculpalm when thou goest south of the border of Masunandiscun), even in the province of Pharijnee, which is the country of the Ephphvees.

3. Now the Ephphvees had been patriarchs from the beginning, and like them of old had bought their wives for a price.

4. For aforesaid the men of the land of Jonbool, merchants who bought slaves in Ethiopia, and carried them across the great sea and sold those of them that were left alive, had taken of their women which stole, and them which trafficked in the streets and upon the house-tops, and instead of putting them to death or into prison, they had sent them by ship-loads unto Pharijnee, and sold them for wives unto the men of that land. And thus did the men of Jonbool rid their land of pestilent women and turn an honest penny, after their manner.

5. So these women became wives and mothers unto many of the Ephphvees that they might live after the manner of the patriarchs. But there were some which bought not their wives; but they bought their concubines. So they lived after the manner of the patriarchs.

6. And because these concubines were Ethiopian women, even Niggahs, and their ill-savor went up, it behoved the Ephphvees that their days of purification should be accomplished, to wit: six months with oil of myrrh and six months with sweet odors and other things for the purifying of women, even as it was unto Esther before she went in unto Ahasuerus. But the Ephphvees tarried not for these things.

7. And when Phernandiwud declared the new gospel of peace, Robbutleeh marched northward with all his host into the land of the langkies; and as he marched the new gospel prevailed more and more.

8. And there was great joy among the followers of Phernandiwud, and among all the faction of the Phlukkes among the Dimmichahs, which were called Kopurhedds.

9. For in the land of Unculpalm there is an evil beast and a venomous, which crawleth upon his belly in the dust, and compromiseth himself humbly until there is good occasion, and then he stingeth unto death without warning and in silence. And the name thereof is kopur-hedd.

10. And Robbutleeh marched northward with a mighty army, even an army of an hundred thousand chosen men. And the Tshivulree and the Phiretahs of the South boasted after their manner that the armies of Unculpalm could not withstand or hinder him, and that he would lay waste the country of the langkies, and minister the gospel of peace unto them in such a manner as would delight the hearts of Phernandiwud, and of the Kopurhedds, his followers.

11. Moreover, they prophesied that he would break up their government, and dissolve the bonds of their union, so that they would be no more a nation, but a gathering together of prodigious variance among themselves, each one doubting, fearing and hating the other, and so the war would come to an end and the gospel of peace prevail forever.

12. And the captain which were under Robbutleeh boasted mightily; for they had overcome one of the captains of Unculpalm, and driven him out of the province of Pharijnee. So they were mightily puffed up. And when they entered the province which is called the land of Mary, and had taken a city called Hagar, because she was the concubine of Abraham, and handmaid unto Sarah, his wife (for the land of Mary is a patriarchal land), and the people of the city would have fled away, the captain of the Tshivulree said unto them, Flee not away in hope to return again when we are departed; for we have taken this city to dwell in it. So the people remained.

13. But Robbutleeh still marched northward with his host, leaving garrisons behind him in the cities which he took, until he entered the province of Schadbellee, which, being interpreted, is the country of the Coocares.

14. And he sent the chief captains which were under him, each captain with his company, northward toward the city in which dwelt the governor of the province of Schadbellee, and eastward toward the chief city of the province, which is called Coocare City. And the great merchants of the province of Schadbellee dwelt in that city.

15. And Robbutleeh took the little cities upon the southern border of the province of Schadbellee, and put a captain with his company in each of them; and he threatened to take the city of the governor of the province of Schadbellee, and his soldiers scoured the country and carried off corn and cattle and raiment, even much spoil. And great fear fell upon the men of Coocare City and of Gotham, and upon all the people throughout the land of Unculpalm, which is beyond Masunandiscun, because of Robbutleeh and his Tshivulree and his Phiretahs.

16. But the Kopurhedds and the Dimmichahs of their faction feared not, but rejoiced in their hearts. For they said within themselves, Now shall the armies of Abraham be scattered and his government destroyed; and we shall have a new government; and the corner-stone thereof shall be the everlasting Niggah. And they gave Robbutleeh to know secretly that they rejoiced.

17. Now in the province of Schadbellee in the middle country thereof, were many Tychmen, even a great multitude, sons of Hesh, which by them of old time were called Hesh-Huns.

18. For when the king of the land of Jonbool, who was himself a Tychman, and the son of a Tychman, made war upon the men of Unculpalm, he bought Tychmen, sons of Hesh, of their king, and sent them under his captains and under his officers to fight with the men of Unculpalm, even the langkies.

19. And when the sons of Hesh had been well beaten by the langkies, of them that were left of them many remained in the land of Unculpalm, in the province of Schadbellee. For they saw that it was a rich land and a goodly, even a land in which they might get gold, which being interpreted is loers.

20. And they sent letters to their friends and

their kinsmen which dwelt in the land of Hesh, saying to them, Come unto this land and live, for there is gold here. And they came.

21. And these Tychmen learned not for a long time the language of the langkies, nor followed they their customs, even for two generations, but they spoke their own language, and their scribes wrote in it, and they followed their own customs. And they lived slowly, so that where the langkies lived ten days in one day, the Tychmen did not live ten days in one year. And they learned only one thing of the langkies, to worship the great ruler Jah Xunn, and to believe in him. And they believed in him, and obeyed him, and gave their voices that he should be chief ruler of the land of Unculpalm many years after he had been gathered to his fathers; and they do so even unto this day.

22. And like Jeph, the chief ruler of the Tshivulree, they were repudiators; and it was by their voice that the province of Schadbellee was numbered for a little time with the repudiators. For the Coocares, though they do look after lucre, yet do they not repudiate.

23. And the Tychmen did nothing and thought of nothing, night and day, but to get gold; and when they got it they put it into pots and into stockings and hid it away. And their cattle were better lodged than they.

24. And when Robbutleeh marched into the province of Schadbellee, into their country, the Tychmen bowed themselves down before him, and compromised themselves unto him, and said, What may I lord that his servants shall do that he will be gracious unto them? For they hoped to save their gold and their cattle, to put more gold into their pots and into their stockings; but for the nation and its honor and power, and the freedom of its people, and the justice of its councils, cared they nothing?

25. And there was a certain man of lawre, a little city, which was chief ruler thereof, who, when he heard that one of the captains of the Tshivulree was drawing him unto his city, mounted his horse and rode forward to fight the captain, that he might be in haste to compromise unto him, and to render him up the city. And he was of the sect of Smalpri among the Dimmichahs.

26. And he rode many miles, and wandered far into the open country, until the night was passed and the dawn appeared, but he found not the Phiretah captain. And he returned home sad and very sorrowful because he had not been able to compromise unto the Phiretahs, and give up his city.

27. But Robbutleeh and his captains, though they were Tshivulree, thought scorn of the chief man of lawre and of the Tychmen, and spat upon their compromising, and took their cities like conquerors.

28. And the captain which took the city of lawre made a proclamation to the inhabitants, saying,

29. Men of lawre, ye deserve that I should burn your city and cast you out, even ye and your wives and your little ones into the wilderness; because ye are of the accursed race of the langkies, which, when the people of our cities have made war upon them and killed them, have destroyed the cities and driven out the people, even the Tshivulree, which is an abomination.

30. Behold now also how we of the Tshivulree are not like the langkies, in that we respect private property. I shall not take from you your property, I nor my officers, nor my soldiers. But ye shall bring unto me speedily one hundred thousand pieces of silver, and six hundred measures of fine flour, and thirty thousand measures of corn, and forty thousand pounds of the flesh of fat beoves, and one thousand changes of raiment, even of shoes and coats and of nether garments, which are unmentionable, and ye shall deliver the full tale thereof unto officers that I shall appoint, or I shall lay waste your city and destroy it with fire.

31. And when the chief man of lawre and the Tychmen had read the proclamation their hearts sunk within them. But they confessed it not even among themselves, but said one to another, Behold how pleasant and good and profitable a thing it is to compromise unto the Tshivulree. For if we had not compromised unto them they might not have respected our private property. But now we have only to bring unto them, speedily, silver, and fine flour, and corn, and flesh of beoves, and changes of raiment, with the nether garments, which are unmentionable, or to have our city laid waste and burned over our heads. Let us, therefore, bring up the gold, and the corn, and the cattle, and the unmentionable raiment, speedily.

32. And they did so. And in three days they brought money and meat and raiment, even to the sum of thirty thousand pieces of silver. And they could pay no more. So they compromised themselves yet more unto the Phiretah captain, and said unto him, Forgive thy servants the residue. But he answered them, I will not forgive you: see that ye pay the full tale thereof in twenty days, or I will destroy your city, which I have not yet done because we do respect private property.

33. And when these things were noised abroad in Coocare city and in Gotham, there was amazement and consternation, and chiefly among the Kopurhedds, many of which were rich and had great possessions.

34. For they said, Lo, the people of lawre and the Tychmen round about have compromised themselves unto the Tshivulree, and the chief ruler of lawre sought out the captain of the Phiretahs diligently; that he might render him up the city; and yet they, who respect private property, have leaved upon the people of lawre a contribution which valueth three hundred thousand pieces of silver.

35. Behold, now, lawre is a little city, and the people thereof are of small wealth and few possessions. What, therefore, must we give, even we who compromise ourselves, when Robbutleeh cometh unto our cities. In Coocare city it will be twenty millions of pieces of silver, and in Gotham it will be fifty millions, and peradventure, one hundred millions. We like not this manner of compromising; for now we begin to see that it is all upon one side. (For this sort of men have their understanding in their pockets.) And there was great commotion.

SAMPSON was strong physically, but was a poor, weak creature, after all, and couldn't resist the smiles of a beautiful woman. Ditto of Hercules: Omphale spitted the slayer of the Nemean lion, like a fly, on the point of her distaff.

THE Rebel Congress transacts most of its business in secret session. It dare not let the people know what it is doing. What a commentary upon the boasted Republicanism of the bogus Confederacy!

A RICH SCENE.—In the Canadian House of Assembly, some time since, they had quite a spirited debate on the bill to prohibit the use of hoops and crinoline, introduced by Mr. Alkenn. We publish a few of the most brilliant passages:

Mr. Drummond was an ardent admirer of hoops from childhood. He was born with a love of hoops. When he was a child he used to trundle hoop, all unconscious of the fate that was in store for him. Later in life he swallowed a ring, which resulted in a whooping-cough, and even now the sight of an empty hogshead brought tears into his eyes.

Mr. Brown complained that it was impossible to choose a wife, since her defects were so hidden by hoops and enveloped in crinoline that the naked—

Speaker.—Order.
Mr. Brown.—Mr. Speaker, the naked—
Speaker.—The honorable gentleman is out of order.

Mr. Brown.—But Mr. Speaker, the naked—
Speaker.—Hold your tongue, sir.
Mr. Brown.—The naked—
Speaker.—Upon my soul, Brown, a silence, or I'll have you arrested.

Mr. Brown.—Permit me to explain, Mr. Speaker. When I said the naked—
Speaker (yelling).—Clear the galleries of ladies. Mr. Sergeant.

Mr. Brown.—In the name of the seventeen graces and the fifteen muses, Mr. Speaker, let me apologise; I only meant to say that hoops and crinoline have reached to such a rotundity that it was impossible to arrive at the naked—
Speaker (frantically).—Death and blue devil! Stop, or I'll brain you with the mace. Consider the impropriety of—

Brown (wildly).—Truth! truth! truth! Naked truth was what I was going to say.

Mr. Dunbar Ross understood his honorable friend could not pass along the streets without being assailed by highway urchins. Now, surely the honorable member from Lake Ontario could not but be aware that the character of every member of the House is affected by such dam—

Mr. Talbot objected to such unparliamentary language.

Mr. Ross protested against interruption. He was going to say by such dam—
Mr. J. Cameron.—The honorable gentleman should not swear in that dreadful manner.

Mr. Ross.—Wasn't doing anything of the kind, but would be tempted to do so if not allowed to finish his sentence—by such dam—
[order, order]—a dam—[confusion]—he would repeat it—by such dam—[triumphous uproar.]

Mr. Wright stood up and moved, amidst the wildest confusion, that Mr. Ross be expelled from the House for such awful language.

Mr. Ross (black in the face) exclaimed that damaging statements was all he meant to say when he was interrupted by a fool—

Mr. Talbot.—Who is a fool?

Mr. Ross.—Foolish ass—

Mr. Cameron.—Who's an ass?

DUTCH FLAT ENQUIRER.

SATURDAY MORNING, JAN. 21, 1865.

New, by St. Paul, the work goes bravely on, The Stars and Stripes are up for Liberty, Flag of the Nation—Talisman of the Free, Carry'd be the hand that dares to tear these down.

Catholic service will be held in the Theatre in this place one week from to-morrow, (Sunday) January 29th, commencing at 10 o'clock, A. M., Rev. Father Callan, of Forest Hill, will officiate.

SANITARY PARTY.—As announced in our last issue, the ladies of Gold Run and Canon Creek gave a party at the former place on Thursday evening last, which was largely attended by the citizens of that vicinity, with quite a number from this place, numbering in all about one hundred. The dance was commenced at an early hour, and was kept up with alight intermissions, until after 3 o'clock yesterday morning, with the best of feeling and conviviality. During one of the intermissions a splendid collation, which had been prepared by the ladies, was served to the guests; after which dancing was renewed with zest, and it was announced that Mrs. E. Aubury had donated a picture of President Lincoln, splendidly framed, to be sold for the benefit of the Soldiers' Aid Society. The picture was put up and bought by Allen Towle, of this place, who, on paying the purchase money, refused to take it, when it was again put up and bought by Dr. S. Palmer, and again sold to Henry Aebel, who could not stop the current of his generosity, and put it up again, when it was bid in by Mr. C. C. Brogan, who was desirous of making his purchase realize all that was possible, and had it offered again, when it was bid in by L. Chesley, who said he only wanted an opportunity to assist the soldiers, and again put up the picture which was sold to E. H. Gaylord, Esq., of this place, and by him donated to the Ladies' Soldier's Aid Society of Gold Run, amid the plaudits of the entire assembly. The total receipts of the sale was \$36, which, however, was not more than a third as much as it would bring a month hence. The frame was made by Mrs. Aubury of particles of pine burs, which were ingeniously placed so as to form a ground-work, upon which were placed eight beautiful imitation roses, the whole forming a frame that would adorn the walls of the most aristocratic parlor. The dance was again commenced and continued until supper was announced, to which every one did ample justice. The entire receipts of the evening amounted to \$234 50. Too much credit cannot be awarded the ladies for the interest they have manifested in this noble cause, no inconsiderable portion which is due to Mesdames Jewell, Jones, Hollenbeck and Palmer.

Persons who fail to receive their papers regularly will confer a favor by reporting the fact to the proprietor.—Dutch Flat Enquirer. Put us down on that list, Boust.—Stars and Stripes. The above we find in the Stars and Stripes of the 28th Dec. last. The copy was handed us by a friend, and was the first we have seen for the last seven weeks. The bungler who performs the mail duties of that office must be blind when he comes to our name, or the proprietor has marked it off the list, we don't know which, neither do we care. We exchange with papers that perform the like courtesy to us, and none other. Selkirk, prompted by some spite, probably, struck us from the list, and is now endeavoring to induce others to believe that the fault lies at our door. The dodge won't do. We have not received a copy of your paper for nearly two months, the reason you know, we don't.

THAT BRIDGE.—The work that has been performed by Mr. Secord on Sacramento street we understood was paid for by subscription; we learn now, however, that the road fund is taxed \$394 00 for the repairs, and that the balance of the amount subscribed for the improvement of the road, some \$195 00, when paid in will be devoted to filling up the large hole above the bridge, which is imperatively necessary if we desire to have a passable thoroughfare. The Road Commissioner has already expended \$394 of the county funds on the work that cost in the total \$472 00. We hope those who started in to widen the street at this point will not allow it to stop. This portion of the road, with that a little above—in front of Armstein's store—has always been regarded as the most difficult of passage for heavily laden teams, and both points, we are confident could be repaired at a trifling expense, so that the grade would be easy to vehicles of every description.

NOTICE the advertisement in another column of McFarland's Safe. This safe is said to be the only fire and burglar-proof safe now offered for sale. It is rumored that on testing this piece of mechanism a chicken was placed in it when it was subjected to the most intense heat for two days, and when it was opened the poor chicken was found to be frozen to death. If this is so, we advise persons who have valuables to deposit to buy one immediately. They are all they are represented.

FLUNKYISM.—We see that our exchanges are having quite a spirited time in setting right the announcement that "Dr. Broderick Connors" had left on the last steamer for the East by stating that it was "David Broderick Connors," son of Senator Connors. We suppose that the people of our state care very little whether Mr. Connors's son stays at home or goes East, he is probably a boy that can behave himself like many others whose fathers are not Senators, and so long as his father attends to the interests of the people we should be satisfied to let the boy take his chances with the balance of the children. Flunkysim is about "played out."

LETTER FROM SACRAMENTO.

[FROM OUR OWN CORRESPONDENT.]

SACRAMENTO, Jan. 19, 1865.

MR. EDITOR:—The city has been unusually barren of news the past week. No cock-fights, no horse races, no startling tales of scandal or crime has broken the monotony of the passing days. Adding to the general dullness and gloom, a thick fog has at times settled over the city, a fog so dense that old Sol struggled in vain to pierce it with his rays, and imaginative young men, who read the ancient poets, might have supposed that Apollo, charioteer of the sun, blinded by the fog, had lost his ancient pathway through the skies.

With the approach of Spring, householders in the city are paying more than ordinary attention to their gardens, their shrubbery and flowers. In the Spring of the year, and previous to the great flood, that part of the city where residences predominate, was a perfect paradise. The damage done by that calamity is nearly or quite outgrown, and "Solomon in all his glory," was not arrayed as Sacramento the coming Spring. Every shrub and flower for which botany has furnished a jaw-breaking name, pale, odorless blossoms transplanted from your mountain sides and rare exotics from foreign climes, may be found here. It is not strange that Sacramento should be famed for its shrubbery and flowers, since they have so rich a soil, so genial an air and such delicate fingers to aid their growth.

As you have seen by the Union, the contest over the office of State Librarian waxes warm. Under the law as it now stands, the term of Stratton, the present Librarian, expires the 1st of March. The Library is under the control and management of a Board of five Trustees, who have power to elect a Librarian whose term continues four years. The Board of Trustees is at present composed of Harkness—who has a brother in your town—J. W. Winans, B. B. Redding, and Gov. Low and Chief Justice Sanderson who are ex officio members of the Board. Winans and Harkness are supposed to be in favor of the reelection of Stratton, while Low, Sanderson and Redding are supposed to be against him. There is a clause in the Constitution which declares, in substance, that a Judge of the Supreme Court shall hold no other office during his term, and therefore Stratton maintains that Sanderson cannot hold the office of Trustee of the State Library. A suit has been commenced to test the question, and if it is decided that the position of Trustee is an office in the sense in which that word is used in the Constitution, then Sanderson will be ruled out, the Board of Trustees will be ruled out, and Stratton will hold on to his office until the Legislature meets. Stratton thinks, probably with good reason, that he can safely trust his "case" to the tender mercies of that virtuous and disinterested body. This struggle over the still kicking corporosity of Stratton is only a contest between the "Long Hairs" and the "Short Hairs," the former representing the old Repubs. being in favor of Stratton, and the latter representing the Broderick-Douglass men, being against him, while, singular as it may seem, Stratton, in the days of his glory, opposed both of these parties, being a Leocompton man, and the author of the resolutions of the California Legislature instructing Broderick to vote for that unmitigated swindle, yelect Leocompton Constitution. But all patriotic, Christian members of the Union party, like the writer of this epistle, will let the dead past "bury its dead." The welfare of the Library and the interests of the State, through the Library, requires that Stratton should be retained and every member of the Board of Trustees knows it, and they have no business to sacrifice the public's interests to gratify their private prejudices. They may discover when it is too late that it won't pay. For the present, brother Stratton, farewell! If the garrioters succeed in shutting off your wind and salary, be comforted by the assurance that your biography shall be written by one who thoroughly understands your character and appreciates your many merits.

A thrill of joy touched every heart, and the "old flag" was run up on every flag staff in the city on hearing the news of the capture of Fort Fisher, and of the twelve hundred "Democrat" who composed its garrison. The work of "subjugation" goes bravely on. Since the Democracy of the North were so thoroughly whipped on the eighth of November, the Democracy of the South has been visibly "weakening." The monster, called rebellion—if I may be permitted to personify the infamous and hellish thing—is about to "give up the ghost." Grant is slowly but surely eating into its vitals. Thomas is cutting off and frying out its distant members, and the gallant Sherman is giving it some polite and beautiful punches in its lower bowels. When the national life of poor Poland went out in storm and darkness, there were poets and orators and statesmen, the world over, who lamented her fate in words of immortal fire. No such respectable circumstances will perpetuate the memory of the last kick of the vile slave-pen Confederacy. When the "jig is up," and the "concern" goes down "into the blackness of darkness forever," the wisdom and justice of God will be vindicated, and all the world will say, Amen.

NEW AGE.—This is the name of a new paper lately issued at San Francisco, of which W. W. Broughton is the editor and proprietor, the first number of which is before us. It is devoted to the interests of Odd Fellowship, Literature and General Intelligence. The No. before us is well got up, in quarto form, and from the contents, gives evidence of ability and talent. We wish it success.

The Pacific INDEX is the name of another new paper recently issued in New York by Julius Silversmith, who was formerly connected with the San Francisco Mining Journal. It purports to advocate the mining interests of the Pacific States, and for that purpose publishes a map of the different routes from Sacramento to Virginia City; tells its readers that it is 155 miles by Placerville, and one hundred and seventy miles from Virginia City to Auburn! It is clear to be seen that the INDEX is calculated to convey great and correct information in every thing that pertains to the interest of our people. We cannot, however, recommend this paper for either truth or veracity.

DR. ALLISON offers his services as a Mechanical and Surgical Dentist to the citizens of this place and vicinity, and we advise those with decayed masticators to pay him a visit at the Dutch Flat Hotel. He is represented as one thoroughly acquainted with his profession.

BOOKKEEPING.—Mr. Geo. Hertwig begins a school for instruction in bookkeeping, by both single and double entry, on Monday evening next. Persons who are deficient in that science would do well to attend.

TRIAL TRIP OF THE "CAMANCHE."—Twenty tons of coal have been put into the bunkers of the Camanche for her trial trip, which, it is expected, will come off about the middle of next week. The upholsterers are now at work in the wardrobes of the boat. White oil-cloth in a blocked off with blue, with a blue figure in the diamond shaped block in each of the corners of the larger blocks, is being laid down in the officers' quarters. The side rooms in the crew's quarters are designated thus, commencing at the turret machinery room and proceeding on the left: Hammocks, Small Stores, Store Room, Dispensary, Wardroom Stores, Captain's Stores, Purser's Stores, Shells. On the right: General Stores, Boatwain's Stores, Provisions, Light Room, Magazine. The magazine room has a small office in its front. On the left of the turret machinery room is an awning room and the water closets; and on the right, the cook's galley. The painters are entirely through with the interior of the boat back to the engine room, where they are now at work. Part of the dock has also been painted. The timber-heads and chocks for the hawsers are in their proper places; and the ship's bell is hung on the side of the turret. The top to the pilot-house was being put on yesterday afternoon. The binnacle for the compass is of brass, and will be placed on the top of the pilot house to separate it from the iron of the vessel. The binnacle is about three feet long, and of course, circular. The compass is placed in the top. Underneath are oblique reflectors, the last one of which is in the pilot house at an angle with the head of the pilot, so that instead of looking down into the compass it is always before his eyes. In action the binnacle is removed from the pilot house, as is also the temporary smoke stack of the cook's galley. The flagstaff will also surmount the pilot house, a small circular hole being left in the top for the halyards and ensign to pass through.—The covering to the turret is nearly all put on, and holes are now being for the side lights.—S. F. Bulletin.

MURDER.—The following is from the Walla Walla Statesman of Dec. 16th:

A man named Leonard, living about five miles south of the city, killed one A. G. Baer, on Friday last, under the following circumstances: Baer it appears from the testimony before the coroner's jury, had been planning an elopement with Leonard's wife, and went to his house on Friday to consummate his plan. While there Leonard, who had just been grinding his ax, came into the house and sat down and commenced whetting it. Baer indignantly said to him, that he was going to take his wife away, and asked Leonard what proportion of the property he intended to give her. Leonard replied that if the woman wished to go with him he could take her, but that they could take no portion of the property. At this Baer drew a revolver and pointed it at Leonard and snapped it at him, bursting the cap, but the pistol missed fire. Leonard arose and struck Baer with the ax, severing his head nearly from his body, cutting off the jugular vein, and inflicting a wound from which he died in a few minutes. Leonard was arrested and had an examination before Esquire Horton on Saturday, and all the evidence showing that the act was done in self-defense, he was discharged; and the community in general justly bemoan the act. Baer has heretofore borne a good character.

A CALIFORNIAN IN A TIGHT PLACE.—The gentleman spoken of below by a Washington correspondent, is well known to at least a portion of the people of California. He was formerly President of the State Agricultural Society. About the middle of last month Jerome C. Davis, of Yolo county, left St. Louis on a railroad train for St. Joseph, meaning to take the Overland stage at the latter place for California; but Price's gang got after the railroad-trains, and the passengers were robbed, plundered, and captured indiscriminately. Davis however, succeeded in eluding the thieves by climbing on the roof of the car, then hiding himself in the bushes, where he hid his money, watch and papers under a log, and, after a perilous tramp through the woods, reached St. Joseph, procured a military escort and returned for his valuables, which he was lucky enough to find. Before this time I hope that he is well on his way to California, secure from the affectionate regards of the fugacious Price.

NEW AND FATAL DISEASE.—The Contra Costa Gazette of January 7th, has the following: We learn that there are many and sudden deaths occurring lately in the neighborhood of Somersville in our county. In spite of the skill of the doctors the cause seem uniformly fatal. Some call this malignant scarlet fever. The symptoms are thus described by Rev. J. J. Powell, who lives in the vicinity: "Cold chills, with a stiffness about the neck and pain in the back of the head. Then a violent fever which lasts from one to three hours. During the fever there is no pain. After the fever the patient seems to be drowsy and sleepy; then the collapse comes on; the lips turn pale, the eye glazes. After death the corpse becomes spotted with brown and red spots, and the general appearance of the body is bluish. We trust there will be no epidemic, but that the evil will yield to a more thorough examination and the application of appropriate remedies."

LILLIE'S LOCK OPENED IN ONE MINUTE!

NEW YORK, September 2, 1864. F. TILMAN, Esq., 318 Battery street, Bet. Commercial and Clay, San Francisco.

DEAR SIR: WE NOTICE AN ADVERTISEMENT in your daily papers respecting the "security" of the "Lillie" lock. We are aware that you well understand this lock, and, of course, will not allow yourself to be annoyed by such representations. We have just sent for one of our men at the factory, and he, in our presence, opened one of Lillie's best safe locks, after it had been locked and the combination turned on.

By one Blow of the Hammer Against the knob on the outside, and thereby breaking the cast iron bolt on the inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you this lock, that your friends may not be deceived by false representations, etc. Respectfully, A. E. TILTON, WM. McFARLAND.

NO PRACTICAL Lock Picker or Thimble-rigger Required to OPERATE THE SAID LILLIE LOCK.

Any parties desirous of seeing the above mentioned lock, its insecurity and easy mode of opening the same, can call at

318 Battery street, San Francisco.

GLOUCESTER, March 26, 1864. Messrs. TILTON & McFARLAND, Safe Manufacturers, Boston, Mass.

Gentlemen: From representations made by Mr. Lillie, I was induced to purchase one of his

So-called "Fire Proof Safes."

On the 18th of February last, a fire occurred in our block which destroyed a number of buildings, and our own with the rest. We trusted our books, papers and all in the safe. After the fire the so-called "safe" was taken from the ruins, and on opening it we found that

Everything was Destroyed. We send you the safe, with what is left of the papers, and you will see that not one of them is legible or strong enough to sustain its own weight. Having the curiosity to know how our neighbors fared in this fire, we noticed McKenzie & Hardy just opening their safe (TILTON & McFARLAND'S make), and its contents were found to be

In Perfect Condition.

[This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs. McK. & H.'s cellar—such as lard, pork, etc.—their safe was subjected to a much greater heat than that of our own, we being in the clothing business and had "but little in the cellar." There was another of Lillie's safes here subjected to the same fire, faring, however, no better than our own.

Very respectfully, Your obedient servant, GEO. L. CHESBRO & CO. [Signed.]

TILTON & McFARLAND'S SAFE! THE ONLY PROTECTION Against Fire and Burglars.

For the last Fifteen Years

This safe has been well known in California and the Eastern States. They have resisted all the fires on the Pacific coast, and we can point with satisfaction to the record that

No man ever lost a dollar out of one of our safes by means of burglars. Their fire and burglar proof qualities are so well known that they need no further recommendation.

A good assortment of Tilton & McFarland's Fire and Burglar Proof Safes to be had at

No. 318 Battery street, San Francisco. F. TILMAN. ja21 6m

DUTCH FLAT ENQUIRER.

(COMMUNICATED.)
HOW THEY DID IT.

Mr. Editor: I have ever been constitutionally opposed to "surprise parties," having even in your valuable paper growled over the absurdity of seeing bitters bitten, as the "intended victim of the visitation" was sure to be "up to snuff." Well, sir, I take it all back. Listen why.

One evening this week I resolved to attend preaching in the Methodist Church, and set out with the intention of being a good boy; but Lord bless you, Satan was too quick, for my resolution vanished as soon as temptation came in the shape of a most extra-ordinary procession. I stood on the steps seriously watching the light coming in a zig-zag style along the foot-path. Soon the aroma of coffee—no beans there, I'll bet—and nectar and ambrosia! A pig by the Lawyer was brought; chickens weighed down the Banker; two merchants with sauce, steaming hot; while egg-nogg was borne by the Doctor.

Who are those, with dishes laden,
Bent on fisher-fall of fun?
Four snail matrons, one gay maiden,
A merchant's nephew, and a lawyer's son.

My ears, nose and eyes were assailed, and between the wish to attend a revival meeting and a sudden and irrepressible anxiety to see that poor baby of our neighbor's I was a most miserable object of pity. At last, the sight of young Jacob (not the two wived man, you know) carrying hot water, decided me. Perhaps I might be wanted; the baby had cramps or colic; or—; at all events I cleared and found myself among a merry group, around a table laden with substantial and luxuries, which a Reese River man could not resist. Wit, jest, and old fashioned enjoyment possessed all our souls. You just get waited on by— and—, and if you don't submit to every strategy, even Little Mac's, why, then, I'm a saint, that's all. There were a few hearty ha! ha's! and all separated, leaving one member crowing, accompanied by the house organ.

Time fled, when it should linger most;
The brightest joys are soonest lost;
And swiftly fled those hours away,
When friends were near, and hearts were gay.
The brightest smile that mirth could bring,
A sigh for those who used to share—
I feel, I weep, for such things were!

Mr. Editor, was I very wrong to see to a friend's baby's welfare instead of going to church?

[A bad time to ask an editor about your eating chickens, etc., when you know he didn't get any. Of course it was wrong.—Ed.]

DEATH OF W. L. DAYTON.—This distinguished man, our Minister to France, died in Paris on the 1st day of December last. His death a national loss, for he has discharged the difficult duties of his position, with rare ability and fidelity. In the rebel agitations, Slidell and Mason, Mr. Dayton had to contend with crafty diplomats. His broad views, his frank nature and thorough honesty, were, however, more than a match for the fox-like cunning of these experienced politicians. He has proved, that even at the French Court and in opposition to shrewd and audacious adversaries, diplomacy need not degenerate into duplicity and trickery. Mr. Dayton carried weight, not only by his intellectual endowments, but by his honesty.

He was born at Raritan Ridge, New Jersey, February 17th, 1807, and, consequently, at the time of his death was nearly fifty-eight years of age. He began the practice of law in 1830; in 1837 was elected to the State Senate, and in 1838 was chosen Associate Judge of the Supreme Court of that State. In 1848 he was elected United States Senator to fill vacancy and served until 1861. He was a lawyer of high reputation and standing, and as a politician always advocated the measures of the Whig party. He favored the admission of California as a free State, and also the abolition of slavery in the District of Columbia. He ran on the Republican ticket in 1856 for Vice President; was appointed Attorney-General of his native State in 1857, and on the election of Mr. Lincoln in 1861, was appointed Minister to France, which position he held at the time of his death. In every position he was called to fill by the confidence of his fellow-citizens, he discharged with credit to himself and honor to the country, and in no one place did he display more statesmanship and discernment than that of Minister to one of the greatest nations, in the terrible and momentous times that agitated the people of his own country since his first induction in the position of a Government officer.

CONSTABLE'S SALE.—BY VIRTUE OF an Execution to me directed and delivered, on the 15th day of January, 1865, out of the Court of O. H. Young a Justice of the Peace in and for Township No. 7, Placer county and State of California, on a judgment rendered in said Court, on the 3rd day of January, A. D. 1865, in favor of James R. Brown, and against W. S. Conner, for the sum of Two Hundred and Twelve 60-100 Dollars (212 60) in gold or silver coin or the equivalent, with interest thereon at the rate of two per cent. per month from the 3rd day of January, A. D. 1865, together with costs of suit, taxed at Forty-three 75-100 Dollars (43 75), I have on the 14th day of January, A. D. 1865, levied upon and will expose for sale at public auction to the highest bidder for cash in gold and silver coin or the equivalent, at the Engine House of the Rough and Ready Mining Company on Grizzly Flat, Township No. 7, Placer county and State of California, On Monday, the 27th day of February, 1865, At 10 o'clock, A. M., all the right, title, claim and interest which said W. S. Conner had on the 14th day of December, A. D. 1864, or has since thereto acquired, in and to the following named and described property, to wit: One undivided twelfth interest or share of what is known as the Rough and Ready Mining Company's claims, situated on Grizzly Flat, Township No. 7, Placer county and State of California, together with one undivided twelfth interest or share in an Engine and fixtures belonging to the same. The said Engine is now located on the said Rough and Ready Mining Company's claims. Also, one twelfth of an interest or share in the Company's Wood, Timbers, Tools, Cars, Shingles, fixtures and appurtenances thereto belonging or in anywise appertaining. All of which named and described property I will sell as aforesaid, or so much thereof as may be necessary to satisfy the above judgment, together with the costs due, and to become due thereon.

Bladder, Kidneys, Gravel, Dropsical Swellings, Genital Debility, Etc.

THE ASTONISHING SUCCESS WHICH HAS attended this invaluable medicine renders it the most valuable one ever discovered. In fact, it stands unrivaled as a remedy for the permanent cure of the maladies above mentioned, and also

DIABETES.
IMPOTENCY.

PRIVATE MEDICAL INSTITUTE
Established by
DR. J. C. YOUNG, IN 1850,
For the Cure of Private Diseases of whatever nature
AND ALL FEMALE COMPLAINTS.
CONSULTING OFFICE,
540 WASHINGTON STREET,
SAN FRANCISCO, : : : : CALIFORNIA
NO CURE, NO PAY.
Consultation by letter or otherwise, FREE. For direction of letters, see below.

THIS CELEBRATED INSTITUTE has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES AND IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength and vigor from the frame; they give to the world puny and diseased offspring, and poison through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiote, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the one afflicted, the sword of destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles in dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. **WHEN PERFECT CURES** can be obtained by consulting a physician of known practice and thorough investigation into the causes of **DISORDERS OF THE URINARY ORGANS** enables to determine at once the nature of the disease.

All diseases entrusted to the Doctor's care, **PERFECT, SPEEDY AND PERMANENT**
Cures are Always Guaranteed.
In syphilis and its adjuncts; Gonorrhea and its accompanying diseases; all disorders of the Bladder, Kidneys and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient Consumption, and all diseases of the urinary organs, in either sex, cure always warranted, OR NO PAY REQUIRED at the PRIVATE

MEDICAL INSTITUTE,

SEMINAL WEAKNESS OR SPERMATORRHOEA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, depression, tired and nervous dreams accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases, Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence toward a premature and loathsome grave. To him who finds his life dripping out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such a one no hope of cure, but adds to his misery in the knowledge that the one whom he looks to him for so much of his happiness, and whom he trusts to be an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult, then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vice, that dreadful, fascinating and destructive habit, which fills thousands of sick rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a **PERFECT AND PERMANENT CURE, without hindrance from business, change of diet, or fear of exposure.** Safe and infallible. Do not forget the address. See below.

IMPORTANT TO FEMALES.
When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor, understanding how imperatively necessary these requirements are, feels called up to the fact that he has been a **Professor of Obstetrics and Female Diseases** for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy and the utmost confidence can be placed. Consultation, by letter or otherwise, Free. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Restoring Agents. None genuine unless procured at this office.

WHAT EVERYBODY KNOWS:
That Iron well galvanized will not rust; that a simple machine is better than a complicated one; that a wringer should be self adjusting and efficient; that thumb-screws and fastenings cause delay and trouble to regulate and keep in order; that wood soaked in hot water will swell, shrink and split; that wood bearings for a shaft to run in will wear out; that the Putnam Wringer, with or without cog-wheels, will not tear the clothes; that cog-wheel regulators are not essential, that the Putnam Wringer has ALL the advantages, and not one of the disadvantages above named; that all who have tested it, pronounce it the best Wringer ever made; that it will wring a Thread or a Bed-Quilt without alteration.

We might fill the paper with testimonials, but only insert a few to convince the skeptical, if such there be; and we say to all, **PUTNAM'S WRINGER.** Test it thoroughly with ANY and ALL others, and if not entirely satisfactory, return it.

Putnam Manufacturing Co.—Gentlemen:—I know from practical experience that iron well galvanized with zinc will not oxidize or rust one particle. The Putnam Wringer is as near perfect as possible, and I can cheerfully recommend it to be the best in use.

Respectfully yours,
JNO. W. WHEELER,
Cleveland, Ohio.

Many years' experience in the galvanizing business enable me to endorse the above statement in all particulars.
JNO. C. LEFFERTS,
New York, Jan. 1864.
No. 100 Beekman str.

We have tested Putnam's Wringer by practical working and know that it will do. It is cheap; it is simple; it requires no room, whether at work or at rest; a child can operate it; it does its duty thoroughly; it saves time and it saves wear and tear. We earnestly advise all who have much washing to do, with all intelligent persons who have any, to buy this Wringer. It will pay for itself in a year at most.
